Abdul Muqeet

# Software Engineer

Over the past 9 years, as an art director and designer, I've worked with big companies and up-and-coming startups to successfully help them reach their full potential and attract new customers.

PROJECTS — ABOUT

A FEW WORDS ABOUT ME

I’m Damian Watracz, a multidisciplinary designer who focuses on telling my clients’ stories visually, through enjoyable and meaningful experiences. I specialize in responsive websites and functional user interfaces.

Over the past 9 years I have been working with big companies and rising startups around the world as a designer and art director, working solo and leading small design teams. In my spare time I enjoy photography and motorcycle adventures.
